Cytec is Barnstorming the Americas!

The Cytec Powder Coating Resins Team will be busy in September attending industry conferences and giving presentations on the newest polyester resin technologies. Come and meet with us at the following venues:

The Powder Coating Forum, Cleveland, Ohio (September 16-17)

On September 17th, Derek J. Dennis, Technical and Marketing Specialist for Cytec's Powder Coating Resins Group, will give a presentation on [The Evolution of Powder Coating Technology to Manage the Challenge of Low Temperature Cure and Energy Savings for the Powder Coating Industry](#).

For more information about the forum visit:
<http://www.bnpevents.com/PCI/PC101/>

ABRAFATI, São Paulo, Brazil (September 23-25)

On Friday 25th of September we invite you to listen in Auditorium 4 to the presentation "[Low Temperature Cure Powder Coating Solutions for New Expectations, Demanding Substrates and Energy Savings](#)". It will be given by Marcos Evangelista, Technical Service and Quality Control Manager for Powder Coating Resins in South America.

Cytec will as well be present with a booth located in row 3 L/M.

For more information about the conference visit:

Cytec in the News

[top](#)

Cytec is also appearing in the latest coatings journals to spread the word on Cytec products. In September's **Powder Coatings Magazine** (in print or on the web at: www.pcoating.com) learn about Cytec's New Resin Technology for Semi-Matte and Dull Matte Powder Coatings, authored by John D. Jacquin, the Technical Service & Development Manager.

A second part to this technical paper will appear in the October issue.

It is an exciting time at Cytec for new product offerings. Please join us at one of these events to discuss the latest trends and the technologies that Cytec has to offer!
